

WEB OF SCIENCESM

WHAT IS WEB OF SCIENCE?

Search over 12,000 journals and 148,000 conference proceedings across the sciences, social sciences, and arts and humanities to find the high quality research most relevant to your area of interest. Link between relevant research using the cited references and explore the subject connections between articles that are established by the expert researchers working in your field.

GENERAL SEARCH

Search

Combine words and phrases to search across the source records in the Web of Science.

Select AND, OR, NOT to change the relationship between search fields.

Add another search field

Select Your Search Field

Use the drop down to select your search field. Search by Topic, Author, Publication Name, Funding Agency, or ResearcherID Number.

THOMSON REUTERS™

Search Operators

Use **AND** to find records containing all terms

Use **OR** to find records containing any of the terms

Use **NOT** to exclude records containing certain words from your search

Use **NEAR/n** to find records containing all terms within a certain number of words (n) of each other (stress NEAR/3 sleep)

Use **SAME** in an Address search to find terms in the same line of the address (Tulane SAME Chem)

Stemming, Stop Words, and Spelling Variants

All words are searched (no Stop Words)

British/English spellings are searched automatically (search behavior to find both behavior and behaviour)

Lemmatization automatically helps find variations by stemming for plurals (even complex plurals like tooth/teeth) and searching different verb tenses (run/running) and degrees of comparison (big finds bigger and biggest). Lemmatization can be turned off by enclosing terms in quotation marks.

Wild Card Characters

Use truncation for more control of the retrieval of plurals and variant spellings with Lemmatization turned off.

= zero to many characters

= one character

= zero or one character

Phrase searching

To search exact phrases in Topic or Title searches, enclose a phrase in quotation marks.

For example, the query **"energy conservation"** finds records containing the exact phrase **energy conservation**.

Parentheses

Use parentheses to group compound Boolean statements. For example:

(river or stream or pond) and ("waste water" or pollution)

Author Name

Enter the last name first, followed by a space and up to five initials.

Use truncation and search alternative spelling to find name variants:

Driscoll C* finds **Driscoll C**, **Driscoll CM**, **Driscoll Charles**, and so on.

Driscoll finds all authors with the last name Driscoll

De la Cruz f* OR Delacruz f* finds **Delacruz FM**, **De La Cruz FM**, and so on.

FULL RECORD

Titles

Full titles are indexed and searchable.

Authors

All authors are indexed. Search using last name and initials (e.g. garfield e*)

Cited Reference

Click on the Cited Reference number to move to the Cited Reference view of this record.

Abstract

All abstracts are indexed as provided by the journal (1991 to present).

Author Keywords and KeyWords Plus

Author Keywords are indexed and searchable. KeyWords Plus are words and phrases harvested from the titles of the cited articles.

Addresses

All author addresses are indexed and searchable. Reprint author e-mail addresses are listed when available. Common address terms will be truncated (Univ, Coll, Hosp, etc.).

Funding Information

Funding agency, grant numbers, and the funding acknowledgement text is searchable (2008 to present).

ResearcherID

ResearcherIDs are searchable and displayed when available. ResearcherIDs are harvested from public profiles at www.researcherid.com.

Link to full text and/or library holdings information.

The screenshot shows a Web of Science record page. At the top, there are navigation tabs: 'All Databases', 'Select a Database', 'Web of Science', and 'Additional Resources'. Below these are search options: 'Search', 'Author Finder', 'Cited Reference Search', 'Advanced Search', and 'Search History'. The main title of the record is 'Monoamine oxidase inactivation: From pathophysiology to therapeutics'. Below the title, it lists the authors: 'Bortolato, M (Bortolato, Marco)¹; Chen, K (Chen, Kevin)¹; Shih, JC (Shih, Jean C.)^{1,2}'. The source is 'ADVANCED DRUG DELIVERY REVIEWS Volume: 60 Issue: 13-14 Pages: 1527-1533 DOI: 10.1016/j.addr.2008.06.002 Published: OCT-NOV 2008'. The 'Times Cited' is 24 (from Web of Science). The 'Cited References' are 94. The 'Abstract' is provided. The 'Author Keywords' are: Monoamine oxidase; Depression; Parkinson's disease; Oxidative stress. The 'KeyWords Plus' are: A-DEFICIENT MICE; OBSESSIVE-COMPULSIVE DISORDER; POSTTRAUMATIC-STRESS-DISORDER; OXIDATIVE STRESS; AGGRESSIVE-BEHAVIOR; ANTIOXIDANT ENZYME; MAJOR DEPRESSION; DOUBLE-BLIND; HYPERACTIVITY DISORDER; NEUROLOGICAL DISORDERS. The 'Reprint Address' is: Shih, JC (reprint author), Univ So Calif, Sch Pharm, Dept Pharmacol & Pharmaceut Sci, Rm 518, 1985 Zonal Ave, Los Angeles, CA 90089 USA. The 'E-mail Address' is: jcsih@usc.edu. The 'Funding' section shows a table with columns 'Funding Agency' and 'Grant Number'. The 'Publisher' is: ELSEVIER SCIENCE BV, P.O. BOX 211, 1000 AE AMSTERDAM, NETHERLANDS. The 'Subject Category' is: Pharmacology & Pharmacy. The 'IDS Number' is: 363LM. The 'ISSN' is: 0169-409X. On the right side, there is a 'Times Cited: 26' section showing a list of citing articles. Below that is a 'Related Records' section. At the bottom right, there is an 'Additional information' section with links to the journal's 'Table of Contents' and 'Impact factor'.

Times Cited Counts

Times cited counts for the Web of ScienceSM (all editions) and Web of KnowledgeSM (including Web of Science, Biosis Citation Index, and Chinese Science Citation Database) are displayed on each record. Counts reflect all correct citations and are not limited by your subscription.

CITED REFERENCES

All cited references are indexed and searchable via Cited Reference Search. Click the "References" link on the full record to move to the cited reference view.

Related Records

Click Related Records to find other articles that have cited the same works.

Click the article title to move to a full record.

Unlinked References

Reference that are not linked to full records will display in plain text and include:

Citations to documents not indexed
in Web of Science

Citations to Journal Articles
outside of your subscription year

All document types: Article, Abstract of Published Item, Art Exhibit Review

[View the Full Record](#)

Search Tips:

- Use truncation on cited author and cited work.
- Look for variants (sometimes papers are cited incorrectly) before finishing your search
- The "Citing Articles" count reflects citations from all years and all editions of the Web of Science – even those years and editions you don't subscribe to.
- All cited references are indexed and searchable, including references to books, patents, government documents, etc.
- Secondary cited authors, full source titles, and non-standard source abbreviations are automatically searched across all source records in the Web of Knowledge. Keep in mind that a search of this sort may only return partial results.

Nitrous oxide and carbon dioxide fluxes from a bare soil using a micrometeorological approach

Author(s): [Anonymous]

Source: JOURNAL OF ENVIRONMENTAL QUALITY Volume: 25 Issue: 4 Pages: 898-907 Published: JUL-AUG 1996

Times Cited: 37 (from Web of Science)

Cited References: 40 [view related records] [Citation Map]

Abstract: Increasing atmospheric carbon dioxide (CO₂) and nitrous oxide (N₂O) levels have prompted research on management of the soil C and N pools. The impact of C and N fertilizer addition on N₂O and CO₂ field emissions is not clear. We determined N₂O and CO₂ fluxes from a 1-ha bare soil plot using

MANAGE RESULTS

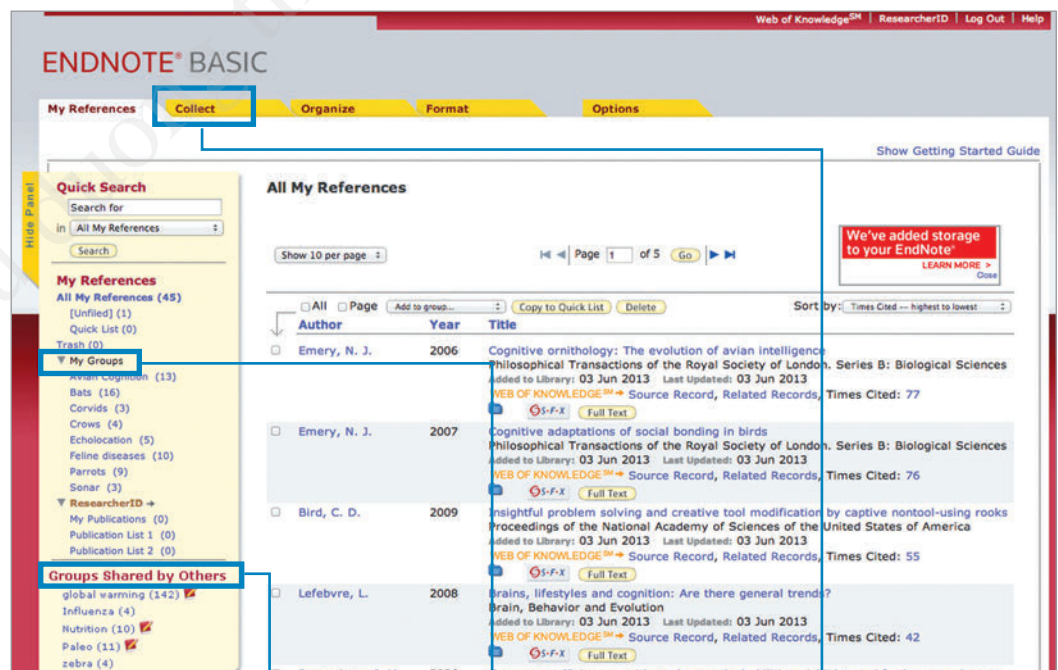

EndNote online

This online resource for reference management and bibliography creation is fully integrated with Web of Knowledge. Through this integration, Web of Knowledge references will automatically display their Times Cited Count, links to Related Records, and full-text links.

With EndNote online, you can collect, organize and manage references and PDFs from online databases and library catalogs from around the world.

Use EndNote's powerful **Cite While You Write** tools to add references and format bibliographies in documents you are writing.

You can access your library any time, either from your Web of Knowledge profile or by going to my.endnote.com and entering your Web of Knowledge User ID and Password.

Share

Share your reference groups with other EndNote users.

Organize

Use "Groups" to organize your library.

Collect

Go to "Collect" to start searching Library Catalogs from around the world.

ResearcherID

ResearcherID is your free, public online space to establish a unique ResearcherID number and create a personal profile. Your ResearcherID profile can include information about your institutional affiliations, research interests, and a list of your publications. Publication information from the Web of Science will have live citation information (updated weekly) and include direct links back to the source record. Once you have added your publications, to your ResearcherID profile, your unique ResearcherID number will be automatically associated with your publications in the Web of Science, creating a direct link from the Web of Science record to your ResearcherID profile.
