## **Practice problems for Chapter 7**

1) Prepare a simple income statement using the accounts below

|                                     | Accounts (\$000) |
|-------------------------------------|------------------|
| Depreciation                        | 25               |
| General and administrative expenses | 22               |
| Sales                               | 345              |
| Sales expenses                      | 18               |
| Cost of goods sold                  | 255              |
| Lease expense                       | 4                |
| Interest expense                    | 3                |

- a) Arrange the accounts into a well-labelled income statement. Make sure you label and solve for gross profit, operating profits and net profits before taxes.
- b) Using a 35% tax rate, calculate taxes paid and net profit after taxes.
- c) Assuming a dividend of \$1.10 per share with 4.25 thousand shares issued and calculate EPS.
- 2) Philagem Limited ended 2007 with net profits before taxes of \$218,000. The company is subject to a 40% tax rate and must pay \$32,000 in preference dividends prior to distributing any earnings on the 85000 shares of ordinary shares currently issued.
  - a) Calculate Philagem's 2007 earnings per share (EPS)
  - b) If the firm paid ordinary share dividends of \$0.80 per share, how many dollars would go to retained earnings?
- 3) Use the appropriate items from those listed below to prepare in good form Owen Davis Company's balance sheet at 31 Dec, 2007.

| Item                     | Value (\$000) at 31 <sup>st</sup> , Dec, 2007 |
|--------------------------|---|
| Account payable          | \$220   |
| Account receivable       | 450   |
| Accruals                 | 55  |
| Accumulated depreciation | 265   |
| Buildings                | 225   |
| Cash                     | 215   |
| Cost of goods sold       | 2500  |
| Depreciation expense     | 45  |
| Equipment                | 140   |
| Furniture and fixtures   | 170   |
| General expense          | 320   |
| Inventories              | 375   |
| Land                     | 100   |
| Non-current debts        | 420   |

| Machinery             | 420  |
|-----------------------|------|
| Marketable securities | 75   |
| Notes payable         | 475  |
| Ordinary shares       | 450  |
| Preference shares     | 100  |
| Retained earnings     | 210  |
| Sales revenue         | 3600 |
| Vehicles              | 25   |

4) Complete the 2007 balance sheet for O'Keefe Industries using the information that follows it.

| Cash                 | \$30000   | Account payable       | \$120000  |
|----------------------|-----------|-----------------------|-----------|
| Marketable           | 25000     | Notes payable         | 160,000   |
| securities           |           |                       |           |
| Account receivable   | 200000    | Accruals              | 20000     |
| Inventories          | 225000    | Total current         | 300,000   |
|                      |           | liabilities           |           |
| Total current assets | 480000    | Non-current debt      | 600,000   |
| Net noncurrent       | 1,020,000 | Shareholders' equity  | 600000    |
| assets               | 1         |                       |           |
| Total assets         | 1,500,000 | Total liabilities and | 1,500,000 |
|                      |           | shareholders' equity  |           |

The following financial data for 2006 are also available:

- 1 Sales totalled \$ 1.8 million
- 2 The gross profit margin was 25%
- 3 Inventory turnover was 6.0
- 4 There are 360 days in the year
- 5 The average collection period was 40 days
- 6 The current ratio was 1.6
- 7 The total asset turnover ratio was 1.2
- 8 The debt ratio was 60%

5) Choose the one alternative that best completes the statements or answers the question. Use the information below to answer the four questions

| Income statement               |           |
|--------------------------------|-----------|
| Dana Dairy Products            |           |
| For the year ended 31 Dec 2007 |           |
| Sales revenue                  | \$100,000 |
| Less cost of goods sold        | 87,000    |
| Gross profits                  | 13,000    |
| Less operating expenses        | 11,000    |
| Operating profit               | 2,000     |
| Less interest expense          | 500       |
| Net profit before taxes        | 1,500     |
| Less taxes @ 40%               | 600       |
| Net profit after taxes         | 900       |

| Balance sheet                        |            |        |
|--------------------------------------|------------|--------|
| Dana Dairy Products                  |            |        |
| 31 Dec 2007                          |            |        |
| Assets                               | han cong . | com    |
| Cash                                 |            | \$1000 |
| Account receivables                  |            | 8900   |
| Inventories                          |            | 4350   |
| Total current assets                 |            | 14250  |
| Gross non-current assets             | 35000      |        |
| Less accumulated depreciation        | 13250      |        |
| Net non-current assets               |            | 21750  |
| Total assets                         |            | 36000  |
| Liabilities and shareholders' equity |            |        |
| Accounts payable                     | 9000       |        |
| Accruals                             | 6675       |        |
| Total current liabilities            |            | 15675  |
| Long-term debt                       | nan cong . | 4125   |
| Total liabilities                    |            | 19800  |
| Ordinary shares                      |            | 1000   |
| Retained earnings                    |            | 15200  |
| Total shareholders' equity           |            | 16200  |
| Total liabilities and shareholders'  |            | 36000  |
| equity                               |            |        |

The average collection period (assume 360 days) for Dana Dairy Products in 2007 is:

- a. 32 days
- b. 25 days
- c. 11 days
- d. 35 days
- 2 The debt ratio for Dana Dairy Products in 2007 is:
  - a. 50%
  - b. 55%
  - c. 44%
  - d. 11%
- 3 The gross profit margin and net profit margin for Dana Dairy Products in 2007 are:
  - a. 13% and 1.5% respectively
  - b. 13% and 0.9% respectively
  - c. 2% and 1.5% respectively
  - d. 2% and 0.9% respectively
- 4 The return on total assets for Dana Dairy Products for 2007 is:
  - a. 0.9%
  - b. 2.5%
  - c. 25%
  - d. 5.5%
- 6) Robert Arias recently inherited a share portfolio from his uncle. Wishing to learn more about the companies that he now has investments in, Robert performs a ratio analysis on each one and decices to compare them with each other. Some of his ratios are listed.

|                   | Energy   | Burger | Fink Software | Roland |
|-------------------|----------|--------|---------------|--------|
|                   | Electric | Heaven |               | Motors |
| Current ratio     | 1.10     | 1.3    | 6.8           | 4.5    |
| Quick ratio       | 0.90     | 0.82   | 5.2           | 3.7    |
| Debt ratio        | 0.68     | 0.46   | 0             | 0.35   |
| Net profit margin | 6.2%     | 14.3%  | 28.5%         | 8.4%   |

Assuming that his uncle was a wise investor who assembled the portfolio with care, Robert find the wide differences in these ratios confusing. Help him out.

- a. What problems might Robert encounter in comparing these companies with one another on the basis of their ratios?
- b. Why might the current and quick ratios for the electricity and the fast-food shares be so much lower than the same ratios for the other companies?

- c. Why might it be all right for the electricity firm to carry a large amount for debt, but the same not be true for the software company?
- d. Why wouldn't investors invest all their money in software companies instead of less profitable companies? (Focus on risk and reward).
- 7) If we know that a firm has a net profit margin of 4.5%, total asset turnover of 0.72 and an equity multiplier of 1.43, what is its ROE? What is the advantage to using the DuPont system to calculate ROE over the direct calculation of earnings available for ordinary shareholders?
- 8) Pelican Paper and Timberland Forest are rivals in the manufacture of craft papers. Some financial statement values for each company are listed. Use them in a ratio analysis that compares their financial leverage and profitability.

|                 | Pelican Paper (\$000) | Timberland Forest (\$000) |
|-----------------|-----------------------|---------------------------|
| Total assets    | \$10,000              | \$10,000                  |
| Total equity    | 9,000                 | 5,000                     |
| Total debt      | 1,000                 | 5,000                     |
| Annual interest | 100                   | 500                       |
| Total sales     | 25,000                | 25,000                    |
| EBIT            | 6,250                 | 6,250                     |
| Net income      | 3,690                 | 3,450                     |

- a. Calculate the following debt and coverage ratios for the two companies. Discuss their financial risk and ability to cover the costs in relation to each other
- i, Debt ratio
- ii, Time interest earned
- b. Calculate the following profitability ratios for the two companies. Discuss their profitability relative to each other
- i, Operating profit margin
- ii, Net profit margin
- iii, Return on assets
- iv, Return on equity
- c. In what way has the larger debt of Timberland Forest made it more profitable than Pelican Paper? What are the risks that Timberland's investors undertake when they choose to purchase its stock instead of Pelican's?

9) Bauman Company's total current assets, net working capital and inventory for each of the past four years are given below

| Item                 | 2004  | 2005  | 2006  | 2007  |
|----------------------|-------|-------|-------|-------|
| Total current assets | 16950 | 21900 | 22500 | 27000 |
| Net working capital  | 7950  | 9300  | 9900  | 9600  |
| Inventory            | 6000  | 6900  | 6900  | 7200  |

- a. Calculate the firm's current and quick ratios for each year. Compare the resulting time series of each measure of liquidity (i.e. net working capital, the current ratio and the quick ratio)
- b. Comment on the firm's liquidity over the 2004-07 period.
- c. If you were told that Bauman Company's inventory turnover for each year in the 2004-07 period and the industry averages were as follows, would this support or conflict with your evaluation in b? Why?

| Inventory turnover | 2004      | 2005     | 2006  | 2007 |
|--------------------|-----------|----------|-------|------|
| Bauman Company     | 6.3       | 6.8      | 7.0   | 6.4  |
| Industry average   | 10.6      | 11.2     | 10.8  | 11.0 |
| cul                | u duong t | han cong | . com |      |

10)MacDougal Printing had sales totalling \$40 million in financial year 2007. Some ratios for the company are listed. Use this information to determine the dollar values of various income statement and balance sheet accounts as required.

| MacDougal Printing        |              |  |
|---------------------------|--------------|--|
| Year ended 31 Dec 2007    |              |  |
| Sales                     | \$40,000,000 |  |
| Gross profit margin       | 80%          |  |
| Operating profit margin   | 35%          |  |
| Net profit margin         | 8%           |  |
| Return on total assets    | 16%          |  |
| Return on equity          | 20%          |  |
| Total asset turnover      | 2            |  |
| Average collection period | 62.2 days    |  |

Calculate values for the following:

- a. Gross profits.
- b. Cost of goods sold.
- c. Operating profits
- d. Operating expenses

- e. Net profits
- f. Total assets
- g. Total equity.
- h. Account receivable.
